You should identify a specific issue/problem/aspect within the above-mentioned themes and provide your own perspective. So, feel free to propose specific sub-topics or perspectives. However, bearing in mind that you would be teamed up with other participants who have chosen a similar topic, the final theme that the group will work on could change from your initial individual idea. This will be part of the mentoring pairing workshop during the Launch event and the mentoring program itself so that you can develop your idea further. In the application form, you will list the first and second priority themes. This will also help us team you up.
